A **jurist and trainer with 18+ years inside EU law and policy**: I turn European rules into capability people can use – first for EU institutions and national administrations, now for organisations adopting AI under the EU AI Act. Founder of **Kramer Consulting SARL-S**, an accredited training provider in Luxembourg; creator of the **Reg-to-Skills** method; and currently advising in practice on a **live high-risk AI system** (Annex III, employment) under Regulation (EU) 2024/1689, in partnership with RMT Labs. Available for conference, panel and guest-lecture speaking on EU law and the AI Act in practice. Trilingual delivery: English, French, Polish.

CURRENT PRACTICE

Founding Director, Lead Consultant & Trainer – Kramer Consulting SARL-S, Luxembourg 2024 – present

- AI governance advisory and AI fluency training for regulated organisations – from frontline teams to board level; approved training provider (*organisme de formation agréé*) in Luxembourg.
- Creator of **Reg-to-Skills**: a method that turns EU regulations (AI Act, DORA) into role-specific, ESCO-aligned competency frameworks and learning paths.

AI Governance Advisor – RMT Labs / Skillbourg (strategic partner) 2026 – present

- Advising in practice on the EU AI Act and GDPR compliance of an AI-enhanced talent-acquisition platform treated as **high-risk under Annex III (employment)** of Regulation (EU) 2024/1689.
- Full-stack governance: risk classification and conformity roadmap; data-governance foundation (ROPA, DPIA framework, lawful-basis register); special-category data (Art. 9), automated decision-making (Art. 22) and data-protection-by-design (Art. 25) under the GDPR; human-oversight and automation-bias controls (Art. 14 AI Act).
- Built an ISO/IEC 42001- and IAPP AIGP-mapped audit instrument; board-level compliance-maturity advisory.

AI Fluency Programme Lead – Digital Learning Hub, Belval (Luxembourg) 2025 – present

- Built and lead a 14-module AI training catalogue taking professionals beyond AI literacy (the EU AI Act Art. 4 baseline) to practical AI fluency: EU AI Act, AI governance, generative and agentic AI (Claude, Mistral), AI for HR & L&D, shadow-AI risk.
- 20+ seminars scheduled for H2 2026.

Senior Moodle & Legal Data Consultant – DG INTPA, European Commission 2024 – 2025

- Introduced competency-based data modelling for the INTPA Academy (Moodle); created job-profile-aligned learning pathways, assessment instruments and completion-support communication plans.
